

Solutions for Conference Organisers

Reach Out. To more delegates at a lower cost.

vReach's webcasting solutions lets you deliver and then track your conferences & events online. VReach webcasts are made more powerful with video and viewer-interactivity features.

- Reach a wider audience... more delegates
- Create a new revenue stream - from online attendees
- Extend the life of your conference
- Create an online knowledge bank of conference and presentations

vReach application areas

- Keynote speaker address
- Conference presentation
- Post conference follow-ups

vReach meets the following challenges

- Creates a new marketable segment - online delegates
- Extends life of the conference
- Monitors and tracks delegate attendance

The vReach advantages

- Online delegates gets a live conference experience
- The online conference feed can be monetized
- 'Online Delegate' saves time and travel & boarding costs
- Increases reach of your conference manifold...across the globe
- Creates an online knowledge bank of presentations & events which can again become monetizable.

Return on investment

- Generate more delegates online; thus more revenues
- Stronger relationships with delegates & members
